

\*\*\*\*\*  
\* These fonts are FREEWARE for PERSONNAL USE \*  
\*\*\*\*\*

It is requested, however, that you neither modify them, nor change their names.

You can distribute them to whomever you like, insofar as this file "README.TXT " accompanies them.

To make these fonts, I used a software bought in the USA, and thus I HAVE the LICENCE OF USE.

These fonts works perfectly well under WINDOWS 95,98,2000 and up as well as on my own computer.

Anyway, I could not be held responsible for any possible problems that could derive from their use.

To use these fonts under Windows (c), just place the xxxxx.ttf files into your directory c:/windows/fonts/

That's all !...

If you would like me to make a font of your personal handwriting or any particular symbolic font, you just need to visit my " PRICE " webpage here:

<http://philing.net>

you will find all details.
